## **Report of the Activity**

**Title:** IIC Regional Meet 2023-24 at Banaras Hindu University, Varanasi, India.

**Date:** 7<sup>th</sup> February 2024.

### **About Event:**

The IIC Regional Meet was held at Banaras Hindu University, Varanasi, India on 7<sup>th</sup> Feb 2024. It witnessed numerous IIC, ATAL, and Innovation participants. As a part of the council, we are highly obliged towards the Designated Officers of MoE's Innovation Cell, AICTE and Guests of the Meet for their benign presence. The event rejuvenated with several pitching sessions, round table conferences, Udyami Bazaar, Innovative and Entrepreneurship Programme followed by workshops and lectures. It was an enriching experience witnessing the innovative spirit and passion for technology among the students. At the event, we enjoyed exploring numerous projects presented by talented individuals from various colleges from all around India. Among them, one project truly stood out – a remarkable Virtual Reality (VR) project presented by Ambar Mishra from the United College of Engineering and Research of Prayagraj. His VR project showcased a blend of creativity, technical expertise, and forward-thinking vision. It was not only impressive in its execution but also had the potential to revolutionize how we perceive and interact with virtual environments.

Witnessing such innovation firsthand reaffirmed my belief in the power of technology to drive positive change. It was inspiring to see young minds pushing the boundaries of possibility and we are eager to see where their journey takes them next.

Special acknowledgement to Shree Dipan Sahu Ji for his relentless dedication to the Institutional Innovation Council. The data presented during the gathering underscored his meticulous oversight of IIC operations, paving the path for national development.
