

## Know Your Friends 2.0

### Objective:

The Prayas Club's "Know Your Friends" initiative aims to explore and document the diverse plant life that surrounds us daily, often unnoticed. Our objective includes:

1. **Species Research:** Investigating the variety of plant species within our college campus.
2. **Plant Origins:** Understanding how these plants were introduced and planted.
3. **Ecological Benefits:** Recognizing the contributions of these species to nature.
4. **Growing Conditions:** Documenting the necessary conditions for their healthy growth.
5. **Knowledge Sharing:** Spreading awareness about these prolific species.

### Event Details:

**Know Your Friends 2.0** took place from **15th May to 15th June**. During this period, we covered the entire campus, excluding the front area (which was documented during the first half).

### Key Activities:

#### 1. Tree Identification and Mapping:

- Participants gathered in the ground in front of R block.
- We divided into two groups:
  - **Group 1:** Covered the area in front of the AA block.
  - **Group 2:** Explored the ground in front of R block and behind the white building.
- With guidance from the horticulture department head and Mr. Arun, we documented tree names, counted species, and attempted to create a map.

#### 2. Hostel Volunteers Participation:

- Mr. Arun met with hostel students who volunteered.
- We focused on trees at the college campus entrance and along the pavements.

---

### 3. Comprehensive Documentation:

- We covered the garden area near the bank and white building.
- Explored the sides of college blocks.
- Documented all areas around the admin block.

### 4. Species Information Compilation:

- Members researched and gathered information.
- Word files were created for further analysis.

### 5. Eco Map and QR Code:

- Integrated details.
- Drafted an eco-map along with a demo QR code.

Our lush college campus owes its beauty to the seeds planted back in 2003. “Know Your Friends 2.0” celebrates this legacy and encourages everyone to appreciate the green companions that enrich our lives.
