# IoT Gems 3.0

**Date:** 10-06-2023 & 24-06-2023

**Duration:** College Hours

## Objective:

In an effort to foster knowledge and practical skills in the realm of embedded systems and the Internet of Things (IoT), PSIT IoT Club proudly presents IoT Gems 3.0. This two-day event, scheduled on 10-06-2023 and 24-06-2023 during college hours, combines a captivating quiz session and a hands-on training workshop. Our objective is to enrich students' understanding of current trends in IoT and empower them with practical insights into the embedded world.

## Event Overview:

IoT Gems 3.0 is a dynamic initiative by the PSIT IoT Club, offering a unique blend of education and practical application. The event kicks off with an engaging quiz on 10th June 2023, serving as a prelude to a comprehensive two-day hands-on training workshop. The venue spans from J-34 to J-36 and L-31 to L-34.

A total of 122 registrations were received, and after a rigorous selection process, 50 students emerged as finalists. We extend our heartfelt congratulations to the winners selected for the IoT Gems 3.0 hands-on training.

## Training Program Schedule:

- **Venue:** J 33, ECE department, PSIT Kanpur
- **Day 1:** 10-06-2023 (4 hours)

- 
- **Day 2: 24-06-2023 (4 hours)**

**Session Timing:**

- **10:00 AM - 12:00 PM: Session 1**
- **2:00 PM - 4:00 PM: Session 2**

**Don't miss the opportunity to enhance your skills and delve into the exciting world of IoT**

**Total participants: 50**

### OFFLINE MODE TRAINING MODULE

**June 10, 2023**

- Introduction to IoT
- Installation of IoT Necessary Software
- Introduction of hardware like: Arduino Board, ESP series board, Raspberry Pi Board
- Input / Output Device & Sensor Interfacing with Microcontroller

**June 24, 2023**

- Sending the sensor data to the server
- Home automation through IoT server
- Concept of robotics & operation of robot through IoT server
- Live demo and working explanation of IoT based projects

# IoT Gems 4.0

**Date:** 28-10-2024

**Duration:** College Hours

## Objective:

1. The main objective of this IoT training program under the umbrella of IoT club is to produce skilled students and to develop ability in students, so that they can understand current embedded world and IoT (Internet of Things).
2. The aim of this training program is to make the students to learn the basics of interfacing so that, students would be able to develop embedded & IoT based projects at their own.
3. Finally, students will come up with a project idea on the basis of which students would be able to prepare a project.

## Event Overview: Event Overview:

Prepare for a transformative experience with IoT Gems 4.0, set to unfold on October 28, 2023, within the confines of college hours. Hosted by the IoT Club, this comprehensive training program seeks to cultivate skilled students, empowering them with the knowledge and abilities to navigate the intricacies of the current embedded world and the Internet of Things (IoT).

## Key Objectives:

---

**Skill Development:** The primary goal is to nurture proficiency among students, fostering a deep understanding of the contemporary embedded world and IoT.

**Basics of Interfacing:** Through hands-on engagement, the program is designed to instill the foundational principles of interfacing, enabling students to autonomously craft projects in the realms of embedded systems and IoT.

**Project Ideation:** As a culmination of the program, students will be encouraged to conceive a project idea. This not only reinforces their learning but also provides a platform for students to develop innovative projects independently.

**Total participants: 57**

Greetings of the day!

We are pleased to share with you the report on the recently conducted workshop, "BOOT CAMP ON DRONE TECHNOLOGY FUNDAMENTALS" in collaboration with the Government of Uttar Pradesh through Dr. A.P.J. Abdul Kalam University. The workshop was successfully organized by Vymanik Aerospace on 12-02-24 at SH2, PSIT Kanpur.

---

Key Details:

- **Keynote Speaker:** Arpit Singh (Manager Operations), Vymanik Aerospace
- **Venue:** SH2, PSIT Kanpur
- **Date:** 12-02-24 (10:00 AM Onwards)
- **Website:** [Vymanik Aerospace](#)

**About Vymanik Aerospace:** Vymanik Aerospace stands as a Customized Drone Manufacturer and a nationwide leader in Aerial Surveillance, Mapping & Inspection services. Headquartered at Atal Incubation Centre BIMTECH Greater Noida, Vymanik Aerospace is funded and supported by the DST Govt of India, StartinUP, and StartUPIndia. The organization has collaborated with prestigious entities such as the Indian Army, Tata Solar, Adani Solar, Renew Power, L&T, NHAI, Indian Railway, NSG Commandos, and the German Development Bank.

Recently, Vymanik Aerospace initiated its Education wing to address the industry education gap. This involves imparting Drone Training and Skill Upgradation through workshops, Internships, and DGCA-approved Drone Pilot Training.

**About the Workshop:** The one-day workshop brought together industry experts, future workforce participants, and technologists to explore the potential of the growing Drone Industry. The workshop covered crucial aspects such as rules, requirements, tools, constraints, and entrepreneurship/job opportunities in the drone industry, providing insights into real-life applications.

**Total Participants:** 40 students

We are delighted to inform you that Vymanik Aerospace will be providing e-certificates to acknowledge the achievements of the workshop participants.

Please find attached the photographs and related documents.

Thank you for your continued support.

## Expert Talk

**Date:** 17-01-2024

**Durations:** College Hours

An Expert talk by Dr. Akash Agarwal, Assistant Professor in the Department of ECE of NIT Patna.

---

He delivered an expert lecture at PSIT Kanpur on **16 Jan 2024** under a broad topic related to *Futuristic 6G Wireless Technologies*.

Dr. Agarwal brings a wealth of academic expertise and practical industry knowledge to his current roles, contributing significantly to the advancement of telecommunications technologies. His dedication to education, coupled with an extensive research background, makes him a valuable asset in both academic and industry settings.

Total Number of Student participated: 142

Total Number of faculty Participated: 17

#### **Dr. Akash Agarwal - Bio brief**

Welcome to the professional journey of Dr. Akash Agarwal, an accomplished Assistant Professor in the Department of Electronics and Communication Engineering (ECE) at the prestigious National Institute of Technology (NIT) Patna.

#### **Education:**

- Ph.D. in Electrical Engineering, Indian Institute of Technology Patna (Jan'15–Oct'19)
- M.S. in Electrical & Computer Engineering, Hong Kong University of Science and Technology (HKUST) (Sep'10–Aug'11)
- B.Tech. in Electronics & Communication Engineering, Uttar Pradesh Technical University, Lucknow (Jun'05–Jul'09)

**Research Expertise:** Dr. Agarwal specializes in several cutting-edge areas within the field of electrical engineering, with a focus on 5G wireless systems (PHY layer design), Satellite Communications (Digital Video Broadcasting), Cooperative Relay Networks, Multicarrier Communications, and WLAN Systems.

---

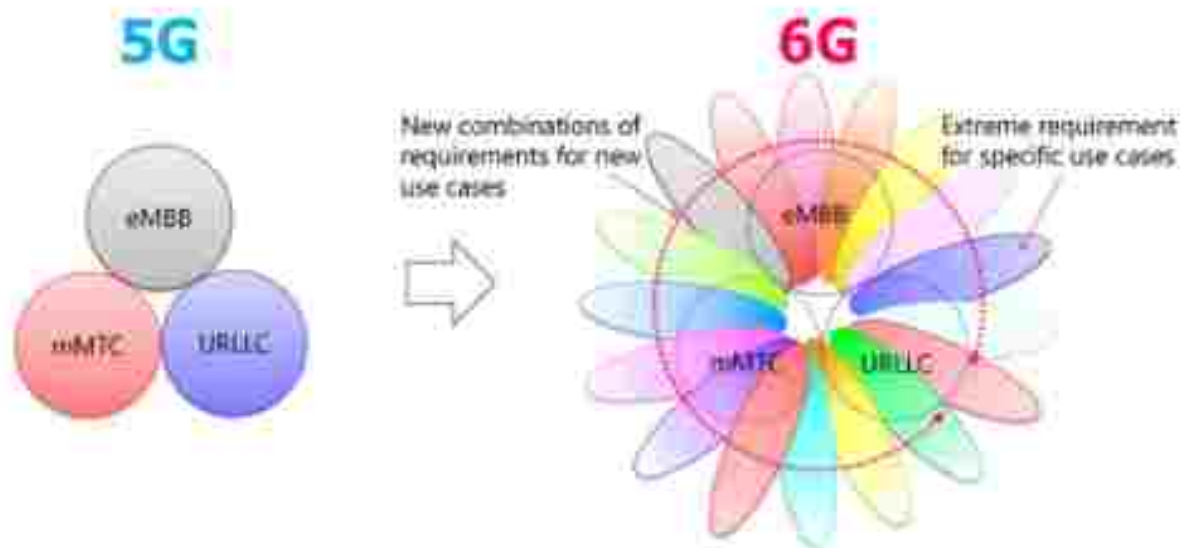

### Work Experience:

- **Assistant Professor, NIT Patna (Dec'22–Present):**
  - Courses taught: Digital Communications, Advanced Communication Engineering, Digital Electronics, MIMO Communications.
  - Additional Duties: Online Coordinator, Student Counselling.
- **Network Engineer, Boeing India Pvt. Ltd., Bengaluru (Dec'19–Present):**
  - Affiliated with Boeing Research and Technology (BR&T).
- **Assistant Professor, BITS Pilani, Rajasthan:**
  - Previous academic position.
- **Project Engineer, ZTE Telecom India Pvt. Ltd., Gurgaon (New Delhi):**
  - Relevant industry experience.

### This Talk Covers:

**5G-Advanced towards 6G: Discussion on Key Wireless Technologies**

## Expert Talk

**Date:** 17-01-2024

**Durations:** College Hours

An **Expert talk** by **Dr. Satya Prakash Singh** Assistant Professor in the **Department of Mathematics and Statistics** of IIT Kanpur.

He delivered an expert lecture at PSIT Kanpur on **17 Jan 2024** under a broad topic related to ***Statistics in Data Science***.

Dear Everyone,

I am pleased to share the report on the expert talk delivered by Dr. Satya Prakash Singh on the topic of "Statistics in Data Science." The talk took place in Seminar Hall 1 on January 17, 2024, from 11:00 AM to 12:00 PM.

The attendance for the session was impressive, with 134 students and a faculty strength of 12.

Dr. Satya Prakash Singh holds an M.Sc. in Mathematics from IIT Delhi and an M.Sc. in Statistics from IIT Kanpur. He completed his Ph.D. at IIT Bombay and pursued a Postdoc at the University of Haifa in Israel. In February 2019, he joined IIT Hyderabad as an Assistant Professor and is currently associated with the Department of Mathematics and Statistics at IIT Kanpur. His research focuses on the optimal design of experiments, specifically in cross-over trials, cluster randomized trials, longitudinal studies, and ordered experiments.

---

During the talk, Dr. Singh explored various topics, including the Monty Hall problem, a probability puzzle inspired by the American television game show "Let's Make a Deal" and named after its host, Monty Hall. Additionally, he covered key subjects such as Conditional Probability, Average Probability, Median, and Standard Deviation.

**PSIT**  
*Kanpur*

**EXPERT TALK** ON

# Statistics in Data Science

**Wednesday, January 17, 2024**

**Expert**

**Dr. Satya Prakash Singh**

Assistant Professor

Department of Mathematics and Statistics  
Indian Institute of Technology Kanpur

**Time: 11:00 am to 12:00 noon | Venue: SH1**

[www.psitkanpur.ac.in](http://www.psitkanpur.ac.in)

Some slides have been captured, and a few snapshots have been taken.

The Monty Hall problem is a brain teaser, in the form of a probability puzzle, loosely based on the American television game show *Let's Make a Deal* and named after its original host, Monty Hall.

- ⇒ Suppose you're on a game show, and you're given the choice of three doors: Behind one door is a car; behind the others, goats.
- ⇒ You pick a door, say No. 1, and the host, who knows what's behind the doors, opens another door, say No. 3, which has a goat.
- ⇒ He then says to you, "Do you want to pick door No. 2?" Is it to your advantage to switch your choice?

Matlab Plot Window (psit)  
000000

Command Window  
0000000000

## Simulation Result

Table:  $P_1$  and  $P_2$  are the probabilities of winning the game when the player stick to the first choice and change the choice respectively.

Trials	$P_1$	$P_2$
50	0.440	0.720
100	0.360	0.650
1000	0.341	0.650
5000	0.331	0.675
10000	0.332	0.667

Command Window  
0000000000

PSIT Kangur

## *A conditional probabilistic solution*

Let us solve the problem using conditional probability arguments.

⇒ Lets call the doors 0,1,2, and the right door  $D$ .

$$\mathbb{P}(D = 0) = \mathbb{P}(D = 1) = \mathbb{P}(D = 2) = \frac{1}{3}.$$

⇒  $D$  is random. Now let us call the door we choose  $C$ .  $C$  is not random. Without loss of generality, let  $C = 0$ .

⇒ Also we have  $R$ , the revealed door, which is random. Since the person won't reveal the right door or the one you choose,  $R \neq C$  and  $R \neq D$ .

---

## Expert Talk

**Date:** 17-01-2024

**Durations:** College Hours

A recent webinar organized by the PSIT IOT club. The webinar, titled "**Semiconductors: Academic to Industry,**" was presented by **Govind Krishna Pal, Senior Staff Engineer at STMicroelectronics Pvt Ltd.**

During the insightful session, participants had the opportunity to delve into the intricate world of semiconductors, exploring the transition from academic knowledge to real-world industry applications. Mr. Govind Krishna Pal shared valuable insights into the evolution of semiconductor technologies and their significance across various industries.

Date: May 16, 2024

Time: 5:15 PM to 6:15 PM

Total Number of students participated through Zoom meeting: - 55

**VLSI (Very Large-scale Integration) Design**

- Sub-micron scale integration is a synthesis of numerous or millions of elements of devices or systems into a single or small ICs/CHIPS/CONDUCTOR.
- VLSI technology's emergence has led to the use of ICs when designer has physical constraints such as high integration and power usage.
- The immediate goal of the designer during a project is to integrate high-performance systems.
- With the advent of VLSI devices, the domain of possibilities for ICs is getting extremely successful in top applications, complex and varied in structure and architecture.

## IGNITIA 2024

Robothon is a robotics competition, organized by PSIT IOT club at PSIT, where teams design and build robots to compete in challenges. It's a thrilling showcase of innovation and engineering skills.

Circuit Mania is an exciting event organized by PSIT-IOT club at PSIT, where participants gather to showcase their electronic creations. Participants build circuits using various components like resistors, capacitors, and LEDs to win exciting prizes. It's a fun way to learn about electronics and bring steam concepts into playtime.

Timing: 2 P.M.

Date: 05/04/2024

Number of students participated: 40

Circuit Mania event details:-

Winner team

1. Kashish omar

CS-2d cse 2201640100179

2. Vibhor sharma CS-DS-elite DS 2201641540122

3. Harmeet singh rekhi CS-2C cse 2201640100152

Runner up team

1. Ujjwal Gupta

EC 2B

2201640310127

2. Uday Gupta

EC 2B

2201640310126

3. Swayam Srivastava

EC 2B

2201640310125

## Semiconductors: Academic to Industry

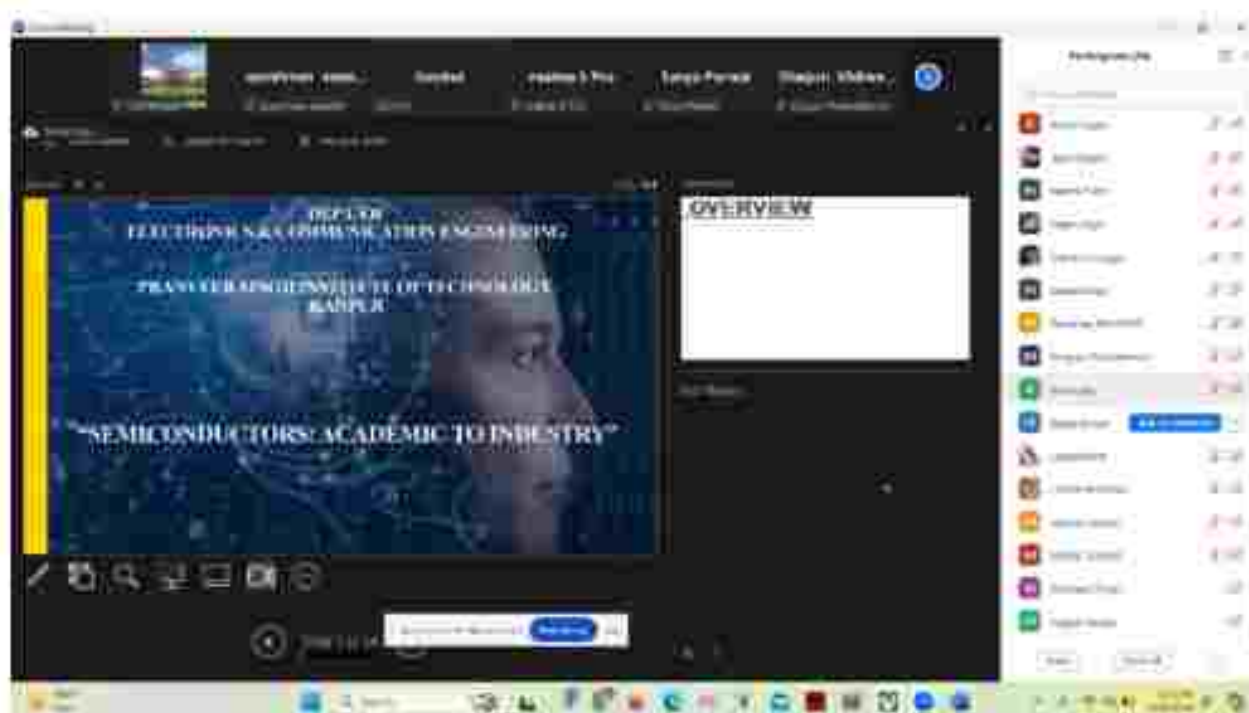

The webinar, titled "Semiconductors: Academic to Industry," was presented by Govind Krishna Pal, Senior Staff Engineer at STMicroelectronics Pvt Ltd.

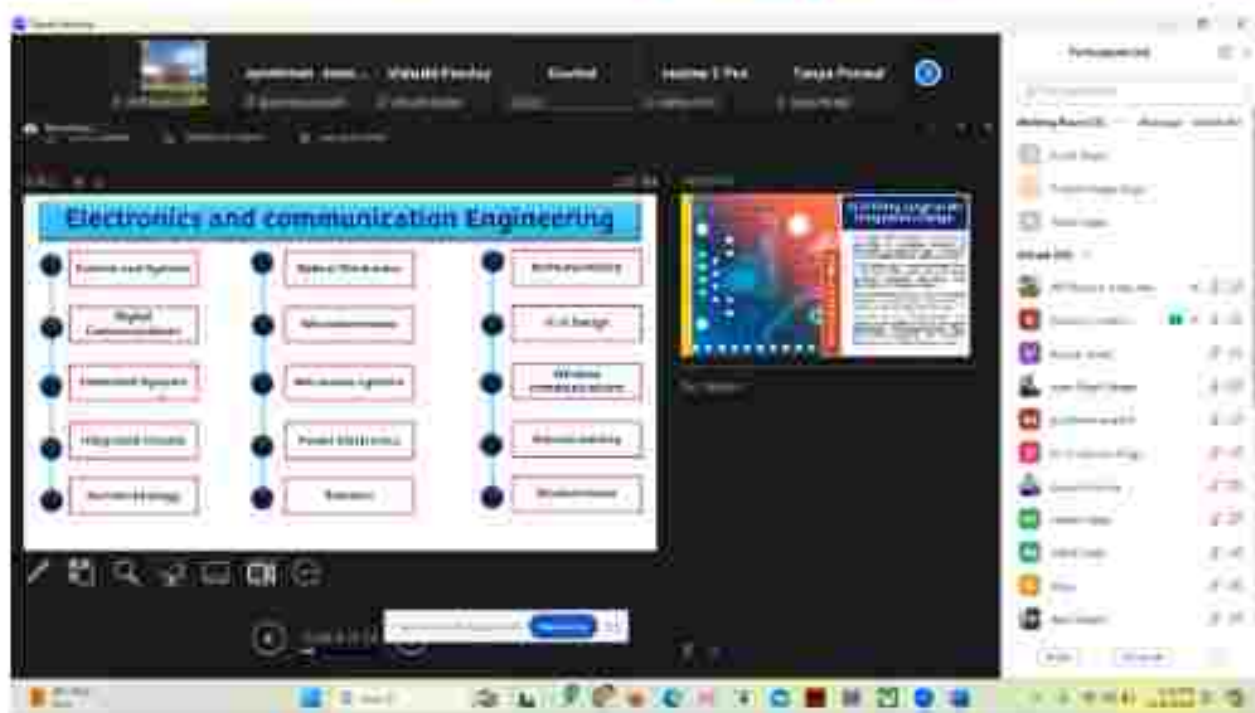

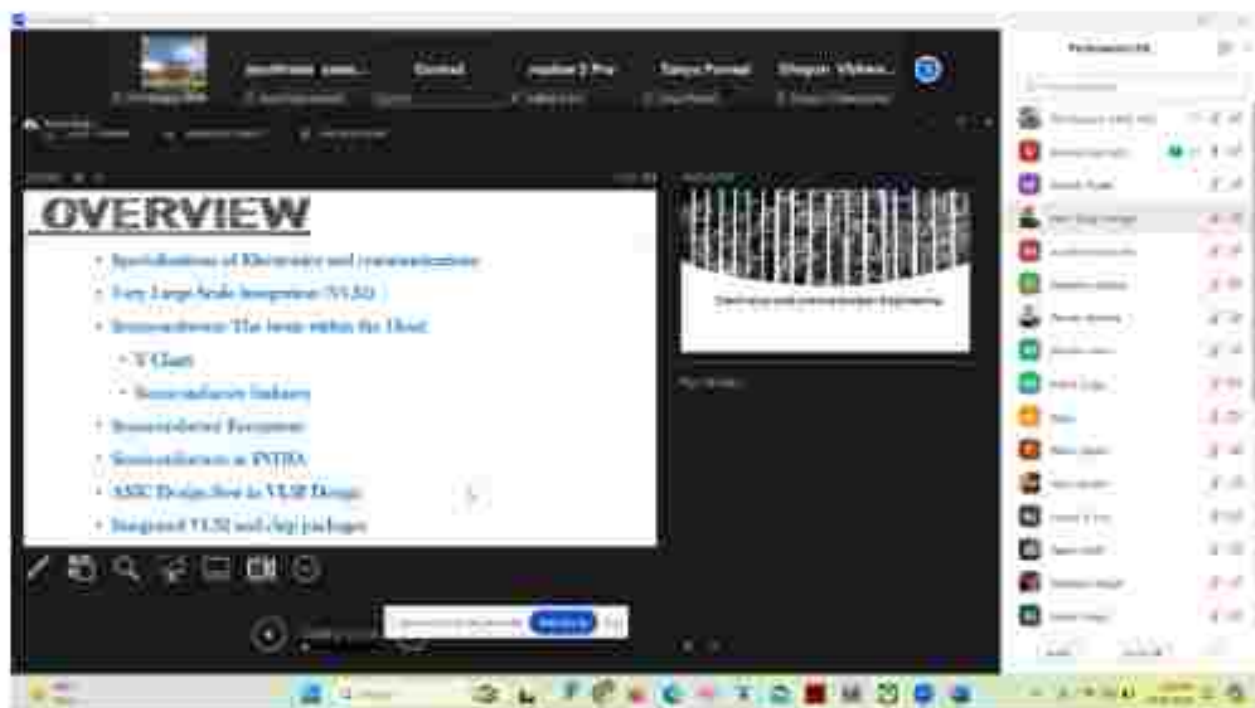

During the insightful session, participants had the opportunity to delve into the intricate world of semiconductors, exploring the transition from academic knowledge to real-world industry applications. Mr. Govind Krishna Pal shared valuable insights into the evolution of semiconductor technologies and their significance across various industries.

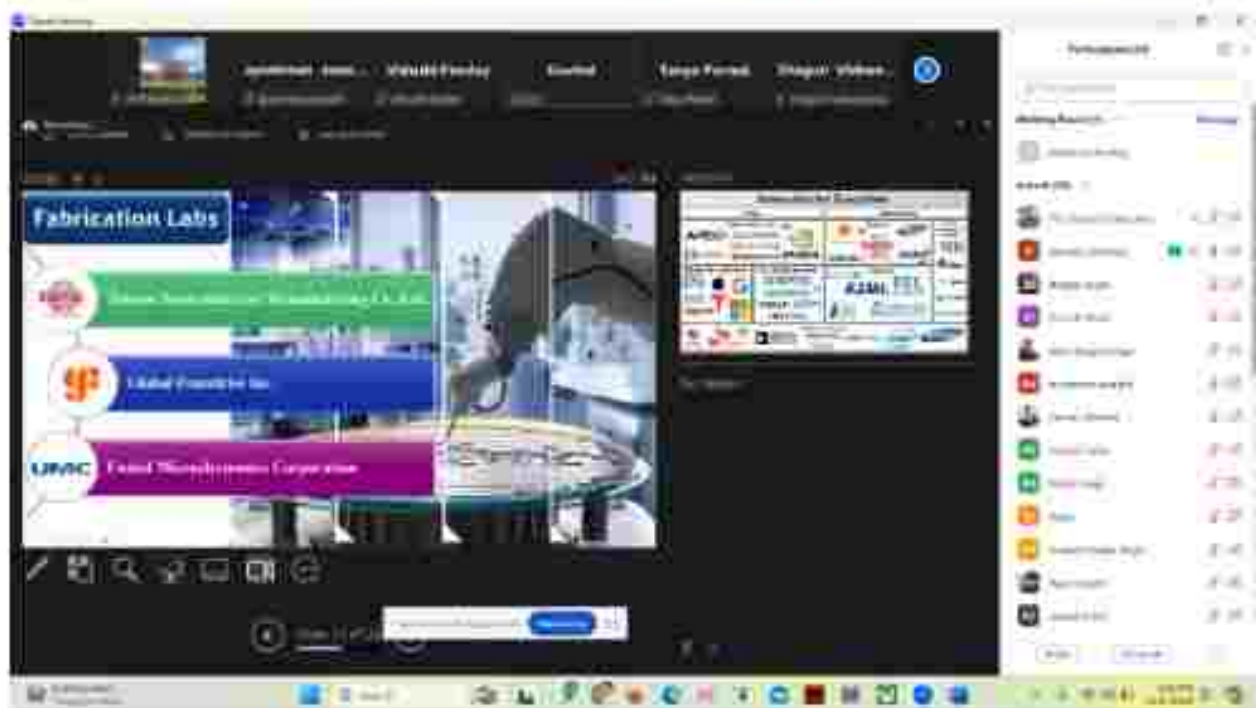

Date: May 16, 2024

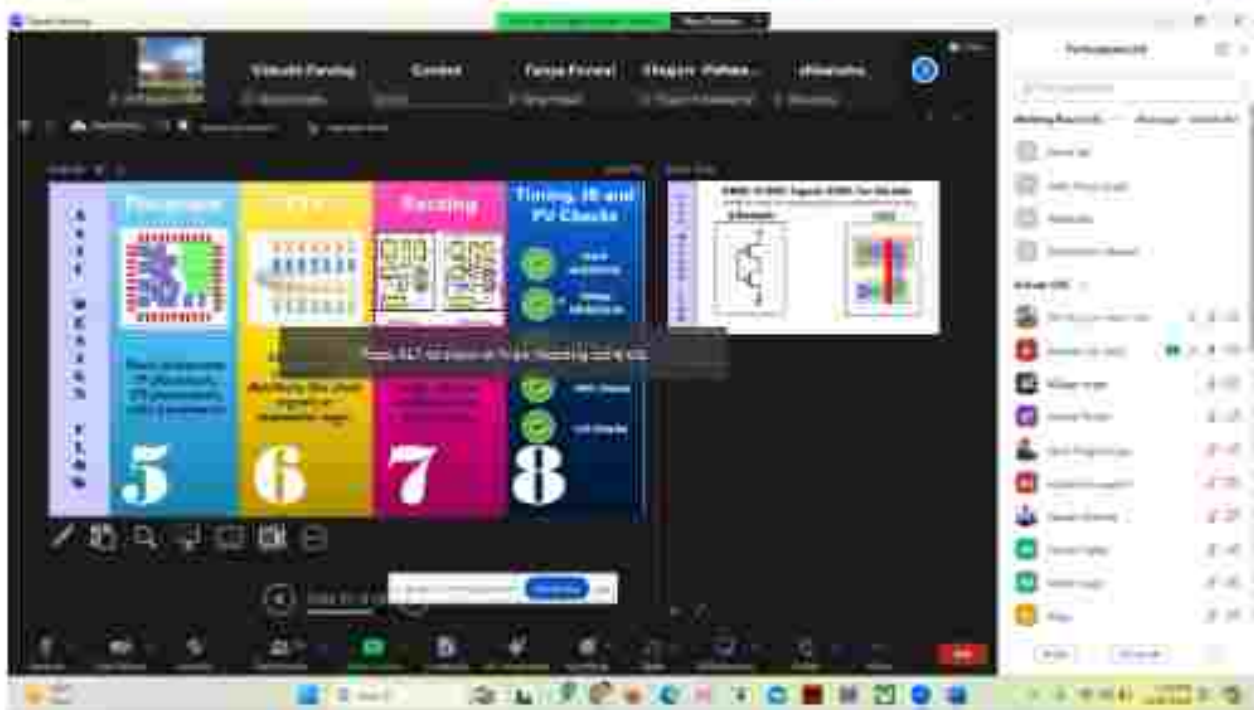

Time: 5:15 PM to 6:15 PM

Total Number of students participated through Zoom meeting:- 55
